

PROFILE

I have expertise in Flutter, Next.js, Nuxt.js, and Nest.js. With Flutter, I create high-performance mobile apps. Using Next.js and Nuxt.js, I build robust server-side rendered web applications, and with Nest.js, I develop modular, testable backend applications.

These are the public projects I develop. Visit my website for more projects. Some of them are private and not yet published on stores.

REGINALDO KARL JAN S.

Software Developer | Flutter Developer

Xube IO | Software Engineer | Contractual
July 2023 – Present
I'm creating a geolocation app for construction site which can monitor all vehicle running around the geofence.

<https://xube.io/>

Bharosa PH | Mobile App Developer | Full Time
June 2023 – Present
Working as a full-time Flutter developer on an app for scheduling medical services.

<https://www.bharosaph.com>

StorageX Corp | Software Developer & Flutter Developer | Full Time
April 2021 – May 2023
I develop and maintain their mobile app and webapp using flutter and nextjs

<https://storagex.com.ph/>

Avyan Global | Mobile App Developer | Part Time
May 2022 – Jul 2022
as a Mobile Developer, I developed a mobile app using Flutter for their clients

<https://avyan.global/>

Altswitch | Flutter Developer | Freelance
September 2022 – November 2022
I was given the opportunity to create a blockchain-based mobile app by Avyan Global. I gained a better understanding of blockchain through this endeavor.

<https://altswitch.io/>

Century Properties | Flutter Developer | Freelance
Before I started my first job as a flutter developer in 2021, this mobile app was my first freelance project. This project shows several condo apartments with various floor plans.
